

MARCO SAUER, GENERAL MANAGER
FRANKFURT OFFICE

PRIORITY FREIGHT APPOINTS MARCO SAUER AS GENERAL MANAGER AT **NEW FRANKFURT OFFICE**

Priority Freight, a leading time-critical logistics specialist, has further expanded its operations in Europe by opening new premises at Frankfurt airport.

After successfully opening a control tower in Bratislava last year, the company continues to strengthen its capabilities in Europe. The new office, which began operations just before the COVID-19 pandemic, is headed up by Marco Sauer.

Marco joins Priority Freight as General Manager of the Frankfurt office, with over 12 years of experience in the logistics industry. Marco began his career in 2008 as Logistics Coordinator for LTU/Air Berlin before quickly progressing to Station Manager at JL Logistic GmbH. In 2012, he moved into the time-critical sector as Sales Manager for Aircargo Trucking & Handling GmbH before being promoted to Operations Manager five years later. Marco has gained significant knowledge in time-critical airfreight solutions and he will add further experience, drive and growth to Priority Freight's German and global air freight teams.

Neal Williams, Group Managing Director at Priority Freight, says, "The opening of Priority Freight's new Frankfurt

premises is an important step towards providing global time-critical solutions to our customers, no matter what the geography, size, weight, distance or mode of transport. Launching operations in Frankfurt in addition to our presence in Willich will further strengthen our service capabilities and enable the team to better support its clients with their time-critical logistics requirements."

Priority Freight is an ISO 9001 & 14001 accredited company. The logistics solutions provided are tailored to the needs of each customer - helping to lower supply chain costs and, through the use of advanced technologies, provide high levels of visibility and traceability at every stage of shipment. Their service enables customers to maximise the flexibility and responsiveness of their supply chains, allowing them to focus on their core business. Priority Freight utilises a highly secure, cloud-based logistics tracking system, allowing its clients full visibility of all shipments in transit, as well as live updates on agreed key performance indicators (KPIs) and freight spend.
