PRIORITY FREIGHT DRIVES GROWTH IN EUROPE WITH RELOCATION TO LARGER FACILITY IN FRANKFURT

June 2022

Leading time-critical logistics specialist, Priority Freight, has relocated one of its German operations to a new, larger facility in Frankfurt. The move supports the company's strategic growth plans and signals its commitment to further investment in the city, Germany's principal air freight hub.

Priority Freight has maintained a long-standing presence in Germany, initially with one office in Krefeld, North of Düsseldorf, and a second in the cargo village at Düsseldorf airport: the latter of which relocated to Frankfurt in 2020. In just two years since opening its air freight hub, Priority Freight's operational capacity in Germany has expanded, requiring larger premises to meet customer demand.

The company has relocated to state-of-the-art, 325 square metre offices in Kelsterbach, close to the Cargo City North – the heart of cargo operations in Europe. This move facilitates access to transport links and airport facilities and, crucially, can accommodate further expansion.

Marco Sauer, General Manager of Priority Freight's new Frankfurt office, said: "This new building forms a strategically important part of our air freight operations and, in collaboration with our other offices, gives our customers

an enhanced range of scalable solutions for their logistical challenges. The company's preparedness for Brexit has resulted in very few delays for our customers, and we continue to transport goods successfully between the UK, Europe and beyond, without any issues.

"We have recently witnessed a dramatic increase in customer demand, from both customers in the Far East and the Americas, and our larger Frankfurt office will be central to our efforts to serve this new business. We look forward to consolidating Frankfurt as a Priority Freight centre of excellence, and it is already proving its worth," he continued.

With the new premises comes more capacity, and Priority Freight is looking to recruit additional members of staff to support its clients' 24/7, 365-days-a-year logistical needs.

Headquartered in Dover, UK, Priority Freight has nine offices across Europe offering industry-leading time-critical logistics solutions to customers no matter the geography, size, weight, distance or mode of transport. Each office is strategically located within the European transport network and is supported by a global network of agents to tackle the most complex of logistics challenges and offer the fastest, most cost-effective and reliable solutions.
